SCHOOL CONSULTATION REPORT

School: Old Peachtree Montessori School
33 Hills Shop Road
Auburn, Georgia 30011

Consultant: Nikki Hughes

Consultation Dates: April 19, & 20 2005

Consultant's Comments:

Old Peachtree Montessori School has been carefully and lovingly developed by its founding director, Gina Ward. It is known and respected in the community. At present it offers a toddler community, three primary classes and an elementary class.

The environment is spectacular. The school is located in the countryside and has spacious grounds including grassy lawns, gardens, large playgrounds and wooded trails. The original house on the property is used for the elementary program and also houses the school library, project work areas and the pedagogical director's office. Two one story buildings at the rear of the house were built for the younger children. There are three large classrooms for the 3-6 years classes and one for the toddler community. A smaller house further over on the grounds houses the administrative offices, a conference room and kitchen facilities with dining space. Driveways and parking areas are ample, convenient, and planned for the safety of the children. With recent planting of the small gardens and window boxes the school has a charming and inviting appearance.
