A Bug's Life

Session I
JUNE 5 - 16

They are ...creeping, crawling,
sliding and flying!
Learn about all kinds of insects
and how they benefit our lives.

PROJECT

- Make your very own Insect Placemat.

Jurassic World

Session II

JUNE 19 - 30

150 million year ago Dinosaurs ruled the earth...!
Why did they disappear?

Learn about Paleontology and dive into the Prehistoric life.

PROJECT

➤ Create a Dinosaur Playscape.

Under the Lily Pad

Session III

July 10 - 21

Explore the secret life that is happening in a pond.
Turtles, fish, frogs and lily pads.
Learning about the life cycles in a pond.

PROJECT

- Design and build your own Pond Mobile.

The Power of Weather

Session IV

July 24 - August 4

Crash, boom, flash,... Brrrrrrrrr!
Learn about where our weather comes from and how it develops in our atmosphere.

PROJECT

- Make your very own Weather Chart.

Caring for Planet Earth

Session V

August 7 - 11
(Half Session)

Mother Earth is our home, we can keep her healthy and beautiful by learning and participating in keeping our Green Footprint TINY!

Learn what we can do now to preserve our one and only Planet Earth!

PROJECT

- Paint your very own Canvas Bag with a Planet Earth Design.
